Data Analytics - Mining and Analysis of Big Data - Revised

In this online data analysis course Data Analytics - Mining and Analysis of Big Data you will be introduced to the concept of big data and to a number of techniques that are used to analyse and interpret big data. The course starts off with introducing you to big data and lists the four V's of big data. You will learn about associative rule mining, and about when association can be applied and the patterns that arise in mining.

Modules Studied

Module 1: Introduction to Associative Rule Mining

Module 2: Introduction to Big Data

Module 3: Introduction to Clustering Analysis

Module 4: Experimentation and Active Learning

Module 5: Course assessment
