Web Development - Advanced CSS3 Selectors and HTML5 Elements - Revised

This course will first introduce you to elements that you can use to create a form as well as the important attributes associated with the form element. You will learn how to correctly format form elements and study the attribute that limits the number of characters which can be typed into a form text box. You will learn how CSS styles represent visual attributes to apply to one or more HTML elements.You will then study the different types of CSS Selectors.

Modules Studied

Module 1: Working with Forms

Module 2: Using CSS3 Selectors to Style Web Pages

Module 3: HTML5 Canvas, Video and SVG Elements

Module 4: Course assessment
